WEBINAR INTERNACIONAL

ENERGY ACCESS IN AMAZONIAN COMMUNITIES

LESSONS FROM THE LAST DECADE AND PATHWAYS FOR THE FUTURE

10:30 a.m. to 12:30 p.m. (Brazil) | 9:30 a.m. to 11:30 a.m. (Bolivia)
8:30 a.m. to 10:30 a.m. (Colombia, Peru, Ecuador)

This event aims to discuss lessons learned, challenges, and proposals to expand access to clean, reliable, and fairly priced energy in Amazonian communities, promoting sustainable, inclusive, and economically viable solutions.

PROGRAM

11/11 | Wednesday

OPENING: WWF-Brazil

Panel 1 | From experience to action

Lessons and recommendations for decentralized energy solutions in the Amazon

Presentation: Institute of Energy and Environment (IEMA)

Panelists:

Projeto Saúde e Alegria

Instituto Socioambiental

Associação dos Moradores da Vila Limeira – Resex Médio Purus/ Lábrea – Amazonas

WWF-Bolívia

Kara Solar

Fundação Amazônia Sustentável

Universidade Federal do Oeste do Pará (UFOPA)

QUESTIONS AND ANSWERS

CLOSING OF THE FIRST DAY

12/11 | Thursday

OPENING AND SUMMARY OF THE FIRST DAY

Panel 2 | From experiences to public policies

How to incorporate community lessons into energy and development policies in the Amazon

Peru: DAR and local dialogues

Ecuador: Kara Solar and the building of a community logistics corridor

Brazil: Energy and Communities Network: experiences and coalition building to improve public policies

Debate with public authorities

Luz para Todos Program (“Light for All”): closer to the needs of Amazonian communities

Energias da Floresta Regulatory Sandbox: the challenge of incorporating local demands into electricity sector rules.

ARPA Comunidades: a long-term program that incorporated lessons from projects and active community participation.
